Dear Chay,

re: Web Site for Australian Music Studios
www.a-m-s.com.au

please accept our sincere thanks and deep appreciation for the totally committed way you helped us establish a presence on the web. You repeatedly not only accepted and realized all the crazy ideas we had but you consistently went well beyond the call of duty, to insure we ended up with a really great site. We could not be happier!

Thanks to your advice and encouragement, the site is being used really well by current and prospective clients. We've had a good amount of traffic already and the site is only weeks old. Last week I sold to a person who had simply found us by searching the web, liked the site and contacted us. We feel really encouraged by this happening so soon and feel that getting the site established was a good investment.

We would like to (and do) recommend your business to anyone in the market for a web presence. Thank you again!

Sincerely,
Signature Removed for Security Reasons
