Dear Chay-Maree,

Thank you to New Enterprise Technologies for the excellent website you have created for Metamorphosis Personal Training!

We looked at a number of different web design companies before choosing your company to design our website. Other companies seemed unstable, didn't listen, and were grossly overpriced or highly unprofessional. We are glad we choose a company that delivered on every promise and every commitment made to us.

I have been very impressed with the thorough, personal and professional approach you have taken, right from our initial consultation through to viewing the finished product and watching as our website grew in popularity and succeeded in not only creating a great sense of loyalty and community within our client base, but in bringing in new clients!

You have provided us with up to date information about who is accessing our site and we are receiving emails and phone calls now as a direct result of being on the web! The site has given our business an edge as we advertise it on everything we put out and certainly has raised the profile and perceived level of professionalism of our studio.

We encourage our clients to visit and revisit the website, which not only keeps all our clients up to date with studio happenings, but increases the chance that they will book additional sessions with us and also refer us to their friends, relatives and neighbours. The website is proving to be a vessel for continual advertising and that's exactly how we see it, our website was truly an investment in the future of our business.

Thank you once again.
Sincerely,

Margaret Culverhouse
